

LIVE WEBINAR

# HOW TO CREATE UNIFIED FORENSIC & LAW ENFORCEMENT TEAMS

March 1, 2024 | 1100 - 1230 EST

## COURSE DESCRIPTION

Crime Scene Investigators and Law Enforcement Officers often spend unnecessary energy battling for authority, control and respect during investigations, but it doesn't have to be that way. Unified forensic and law enforcement teams can work together seamlessly to produce unparalleled results.

This webinar will review the steps forensic professionals can take to reduce conflict, increase respect, increase communication and increase the understanding of the vital role that forensics can play in an investigation when their sworn counterparts fully leverage the experience and knowledge their forensic team members possess.

Upon completion of this webinar, students will emerge with tools they can utilize to build better and more collaborative relationships with the law enforcement officers they regularly work with.

## WHY CHOOSE US?

Our specialized training and resources bridge the gap between generic leadership courses and traditional forensic technician training, equipping you with the skills and knowledge needed for professional development in your forensic career.

**REGISTER TODAY**
